

Partners in Progress

First Bank Plc: Now ISO 20000 Certified

We are proud to announce another landmark achievement driven by Digital Jewels – First Bank Plc ISO 20000 Certification. Congratulations to the “Big Elephant” on this exceptional attainment as the first financial institution in Africa to be certified to the global best practice standard for IT Service Management (ITSM): ISO 20000. We are honoured to have been selected to provide the required professional guidance through the rigorous and painstaking process and steep requirements.

Unity Bank Plc joined the league of PCI DSS Certified financial institutions recently as it became PCI DSS certified. We congratulate the management and staff of this esteemed institution on this achievement. The bank

can boast of highly formidable security countermeasures and an enhanced security posture attested to by both the PCIDSS and ISO27001 certifications. As the Bank's Qualified Security Assessor and Consultant, we are so pleased to have anchored both certification exercises.

At Digital Jewels, we continue to apply ourselves in greater measure and we are conscious of the footprints of professionalism, experience and excellence we leave behind as we journey toward a truly world class organization. Whilst the challenges are numerous and, sometimes, seemingly insurmountable; we continue to

advance the agenda for measurable distinctive value in the industry. We draw strength from above and from our esteemed clients who continue to recognize us as indefatigable, trustworthy and value-adding partners.

Building Capacity Impactfully

Digital Jewels Academy and our Competence Development Unit have been unrelenting in providing both open and in-house training interventions to key industry players. Several engagements were conducted in the second quarter, notable amongst these are: ITIL Foundation Certification training for over 100 staff of a foremost financial institution in Nigeria. Another ITIL Foundation Certification for a Multi-national organization in the Oil & Gas and a specialists' Business Writing & Presentation Skills for a key technology based organization.

Our e-Learning team is busy developing storyboards, customizing Learning Management Systems and utilizing high end authoring tools to deliver on customer's mandates within the Financial Services industry.

Progressive Collaborations

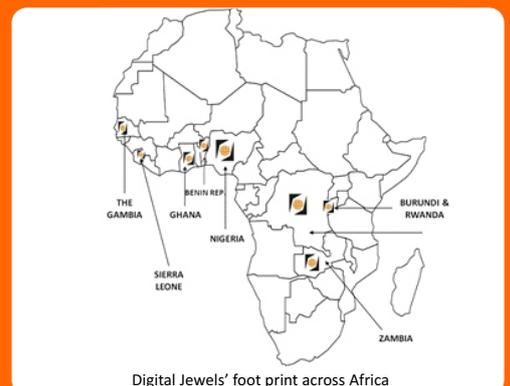

Digital Jewels is proud to have been part of the first ever Institute of Internal Auditors (IIA) Conference in Nigeria. The conference held at Four Points by Sheraton Hotel in Victoria Island from the 16th to 17th of May, witnessed an array of Captains of industry, Thought Leaders as well as professionals auditors. The theme of the conference was Institutionalizing Effective Governance and Control. The conference also featured the very best of the profession as speakers and panelist. Amongst the speakers was the MD/CEO of Digital Jewels, Mrs.

Crossing Boundaries

Our Consulting team continues to take on new and exciting challenges successfully irrespective of culture or distance. The team is presently conducting a comprehensive Information Security Project covering the ISO27001, COBIT and PCIDSS standards for a major financial institution in Accra, Ghana.

Other Information Security engagements are being rolled out in the Telecoms and Oil and Gas sectors to the absolute delight of our tenacious consultants.

Birthing Technology Innovation

TechLaunchpad, a Technology Innovation Program by the Ministry of Communication Technology to accelerate access to market for the local software developers in Nigeria, kicked off in December 2012 with a launch anchored by the Honourable Minister, Mrs Omobola Johnson. The project is a

collaboration between the ministry and the private sector to nurture and develop software entrepreneurs with a vision to build successful software to power the financial services and oil and gas industry in the first instance and other sectors subsequently. The program kicked off with the inauguration of a steering committee chaired by Mr. Buka Kyari with members drawn from First Bank, Access Bank, Chevron Total and ExxonMobil as well as consulting Firms Accenture and Digital Jewels.

8 successful finalists were presented to the Honorable Minister at the Incubation Centre on the 21st of June 2013

Supporting Cashless Nigeria

Digital Jewels also featured in the just concluded Cashless Society conference organized by De Novo and Reach Legal with support from CBN and other private collaborators. The conference was held at the Grand Ball Room of the Oriental Hotel, Lekki from 24th – 25th of June with the theme “Nigeria Transiting to Cash-less Society: Charting the Way Forward”. The conference essentially focused on issues bordering on the nationwide cashless initiative and it featured senior executives of the major stakeholders within the electronic and mobile payments ecosystem, top government officials, policy makers, industry leaders as well as international experts in the payments industry.

Knowledge Sharing, Information Exchange, Business Networking

The 2nd Quarter IVC Breakfast forum featured another experiential case study of a successful implementation of, and accreditation to, a global best practice standard. Our audience was still savouring the insights gained at the Q1 2013 IVC Forum where Ade Shonubi (MD/CEO NIBSS) shared NIBBS journey to accreditation to the rigorous PCIDSS and Adedoyin Odunfa (MD/CEO, Digital Jewels) highlighted the Critical Success

Factors to note and Pitfalls to avoid in attaining certification to this standard. This edition of the IVC came at the heels of Digital Jewels' support to First Bank Plc attaining certification to ISO 20000 standard.

Rasheed Adegoke, the CIO of First Bank Plc was our guest speaker for this quarter. Rasheed's presentation was based on First Bank's recent ISO 20000 (ITSM) certification and was titled “ISO/IEC ISO 20000 (ITSM) Certification Roadmap”. The guest speaker displayed sound understanding of the subject matter as he shared steps adopted in ensuring the certification was a success. *Visit our website for more on this presentation.*

The final year students of Computer Science and Electrical Electronics Engineering departments of the prestigious Obafemi Awolowo University, Ile-Ife were the beneficiaries of DJ Cares Career Counseling seminar in the second quarter edition. The seminar was made possible with support from the Dean of Technology, Heads of Department and the Office of the Vice Chancellor. The career seminar was well attended with about 200 students at the First Bank Lecture Hall where the seminar was held. The DJ Cares team is already planning for the 3rd and 4th Quarter editions of the seminar, which are scheduled to hold in The University of Ibadan and The Polytechnic Ibadan respectively.

The Firm recently launched the DJ Cares Scholarship Scheme in commemoration of the Firm's fifth year anniversary. The scholarship scheme is to provide financial support to indigent undergraduate students of Federal Universities in Nigeria studying IT related courses. The scheme commences in the 2013/2014 calendar year. Visit our website for application details.
